

A&E Fire Equipment Ltd – Press Release
03.11.06
Fire Protection Specialist's New Fleet

A&E Fire Equipment Ltd has recently launched a fleet of newly designed 'A&E' vans. The vans are recognised throughout the South West and West Midlands by the public, and are designed to catch the eye of people throughout the towns and cities. As well as the new eye catching vans, A&E engineers have been presented with new uniforms to match the new vans.

The reason behind the new A&E look is explained, "As **new Government Fire Regulations** are coming into force on the **1st of October**, we took the opportunity to re brand our image as the specialists in fire protection." said Roy Amphlett, Project Director of A&E Fire Equipment. "We constantly look to improve of service to our customers. With the re brand, we are raising our profile as the leading specialists in the South West and West Midlands who can support the public with the new Fire Safety Regulations."

The new vans are on the road from the 11th of September, to continue our support to protect the life's of A&E's customers and the general public as the **Specialists in Fire Protection**.

A&E Fire Equipment have been specialists in Fire Protection for over 40 years. A&E is a customer focused professional business, that is a well established Fire Protection Centre for the South West and the Midlands. A&E offers a vast range of services, products, training and specialist expertise for the Fire Industry:
